

Service categories

The Service Categories section allows you to enter and maintain the services your health center provides. Service Categories are the HRSA-defined scopes.

Note: Service Categories are informational only at this time.

To use:

1. Navigate to the **Admin settings**.
2. In the left-hand menu, Click About Us and then Click Service Categories.
3. Click the **Select service(s) your health center provides** menu box.
4. Check the applicable service checkbox(es).

The screenshot shows a web interface for 'About us'. The main heading is 'Service categories' with a 'See history' link. Below this is a subtitle: 'Define your health center's scope here by choosing all service categories you provide'. A dropdown menu is open, displaying a list of service categories with checkboxes:

- Dental
- Enabling
- Medical
- Mental health
- Other professional
- Substance use disorder
- Vision

5. Click outside of the menu box to close it.

The selected Service Categories will now be displayed on the page.
