

User Profile

The User Profile icon provides users access to various features and settings, enhancing their experience. Changes in this area only affect the individual user, not others from their health center using the solution.

Time Zone

Users can use the Time Zone feature to set the preferred time zone for the application. The time zone options respect the Daylight Savings Time.

To use:

1. Navigate to the **User Profile** menu.
2. Click **Time zone**.
3. Click the **drop-down arrow** to select the time zone.
