

User Profile

The User Profile icon provides users access to various features and settings, enhancing their experience. Changes in this area only affect the individual user, not others from their health center using the solution.

Default Homepage

The Default Homepage allows users to set the landing page upon login to Saber. This provides quick access to the user's most relevant information and tools.

Users with **Financial Insights** and **UDS+** product lines, who do not set a Default homepage, will automatically land on the **Financial Insights Dashboard**.

To use:

1. Navigate to the **User Profile**
2. Click **Default homepage**.
3. Click the Product Line **radio button: Financial Insights** or **UDS+**.
 - **Financial Insights:** This option automatically lands on the **Financial Insights Dashboard**.
 - **UDS+:** This option automatically lands on the **UDS+ Submission to HRSA** page.

Default homepage

Your preferred landing page upon login can be specified here

Product Line

Financial Insights

UDS+

4. The selection automatically saves with the following message.

 Default homepage was saved
